

PDF ReDirect Additional Features By Version

		FREE	PRO
	<p><u>Create Standard PDF Files</u></p> <p>Create universal, standard, reliable and secure PDF files, recognized by industries and governments around the world. Perfect for sharing information with others.</p>	✓	✓
	<p><u>Easy to Use</u></p> <p>Compatible with virtually all Windows programs. Simply select "Print", choose the PDF reDirect virtual printer and your PDF file is created automatically.</p>	✓	✓
	<p><u>Live Preview</u></p> <p>Preview of PDF is displayed so you can optimize your settings on the fly. (Pro version provides an enhanced preview with greater detail)</p>	✓	✓
	<p><u>Optimize Quality and File Size</u></p> <p>Optimize your PDF files for your intended audience, from high quality for desktop publishing to creating small web-friendly files.</p>	✓	✓
	<p><u>Merge PDF Files</u></p> <p>Combine any PDF files together like a Word report with your Excel Charts into a single PDF by dragging them to the Merge List.</p>	✓	✓
	<p><u>Encrypt your PDF files</u></p> <p>Secure your PDF files from prying eyes by using 40 bit password protection. (Pro version uses a more secure 128 bit encryption).</p>	✓	✓
	<p><u>No Pop-up Advertisements</u></p> <p>There are no annoying "pop-up" advertisements that appear while your PDF is being created and there are no watermarks to deface your PDF files.</p>	✓	✓

	<p><u>Set Viewing Style</u></p>	<p>Decide how the PDF file opens in the user's window. Create a full-screen presentation just like PowerPoint with navigation controls.</p>	<p>✓</p>	<p>✓</p>
	<p><u>Easy Upgrades</u></p>	<p>Find, download and install upgrades from within PDF reDirect by clicking on the upgrade button in the preferences.</p>	<p>✓</p>	<p>✓</p>
	<p><u>Fast Web View</u></p>	<p>Create PDF files optimized for faster web loading and viewing.</p>	<p>✗</p>	<p>✓</p>
	<p><u>Hyperlinks</u></p>	<p>Convert web links to clickable hyperlinks (some limitations apply: see the instructions [here]).</p>	<p>✗</p>	<p>✓</p>
	<p><u>Batch Printers</u></p>	<p>Create your very own Batch PDF printers with your favorite settings to automate and speedup your creation of PDF files.</p>	<p>✗</p>	<p>✓</p>
	<p><u>Font Settings</u></p>	<p>Optimize your font settings to meet the needs of desktop publishing companies, or assure the proper viewing of your PDF files in foreign countries.</p>	<p>✗</p>	<p>✓</p>
	<p><u>E-Mail and FTP Support</u></p>	<p>E-mail your PDF files straight from PDF reDirect Pro to your recipient. Use the FTP to upload your report directly to your web site.</p>	<p>✗</p>	<p>✓</p>

	<p><u>Stamps</u></p> <p>Apply pre-made or your own customized stamps and watermarks to your PDF Files.</p>	<p>✕</p>	<p>✓</p>
	<p><u>Attachments</u></p> <p>Add any file to your PDF file such as a PowerPoint presentation.</p>	<p>✕</p>	<p>✓</p>
	<p><u>Print your new PDF files to a Real Printer</u></p> <p>Built-in printer support allows you to print your PDF files to a real printer without having to open the PDF Reader.</p>	<p>✕</p>	<p>✓</p>
	<p><u>PDF File Locking</u></p> <p>Set permissions to lock the PDF file. Prevent your readers from printing or making alterations to your PDF file. Turn off "copy-and-paste" so that your file is protected.</p>	<p>✕</p>	<p>✓</p>
	<p><u>Utilities</u></p> <p>Delete or Rename a PDF file. Create a Folder. Quickly return to a recently accessed folder. Set the PDF's Metadata.</p>	<p>✕</p>	<p>✓</p>
<pre> sFilename = sFilename & ".pdf" ' Setup the PDF output path Result = opdf.SetOutput(sPr ' Check that there were no If Result = 1 Then ' No error occurred: print </pre>	<p><u>VBA Automation</u></p> <p>Use VBA for Word, Excel or Access to create PDF files using your own code.</p>	<p>✕</p>	<p>✓</p>
	<p><u>Page Extraction</u></p> <p>Extract pages from existing PDF files to re-use in other documents.</p>	<p>✕</p>	<p>✓</p>

Remove Protection.

This will remove all encryption and pro

PDF Master Password:

Unprotect PDF Files

You can remove the encryption and/or restrictions imposed on a PDF file to return the PDF to a "normal" PDF state (requires that you provide the Master Password).
