

CUSTOMER TESTIMONIALS

"Your program is one I can recommend to anyone without hesitation"

Peter K Simmang, GeorgeTown, Texas

I was recommending PDF reDirect Pro to someone and I thought I would let you know I have thoroughly enjoyed the new version. The feature we discussed about holding print jobs in the queue works perfectly, and it's a tremendous help when combining multiple outputs to a single PDF. I also enjoy not having to wait for the program to load each time I send a document to it. When I'm doing a lot of outputs, such as monthly invoices, I just leave PDF reDirect Pro running and it saves a good bit of time not having to reload several times. I don't have occasion very often to recommend programs, but yours is one I can recommend to anyone without hesitation.
